PLARENT

A parent to your plants - By Player 11

Discovery

people have the space and the desire for greenery, but they **lack the knowledge and understanding to maintain it.**

People **spend a lot of money on differing varieties of plants** only for them to die due to differing plants needing different specifications

The Problem

How to **automate personalized care intelligence** for aspiring indoor gardeners in order to eliminate the guesswork of plant maintenance and ensure long-term plant health in diverse home environments?

Business Model

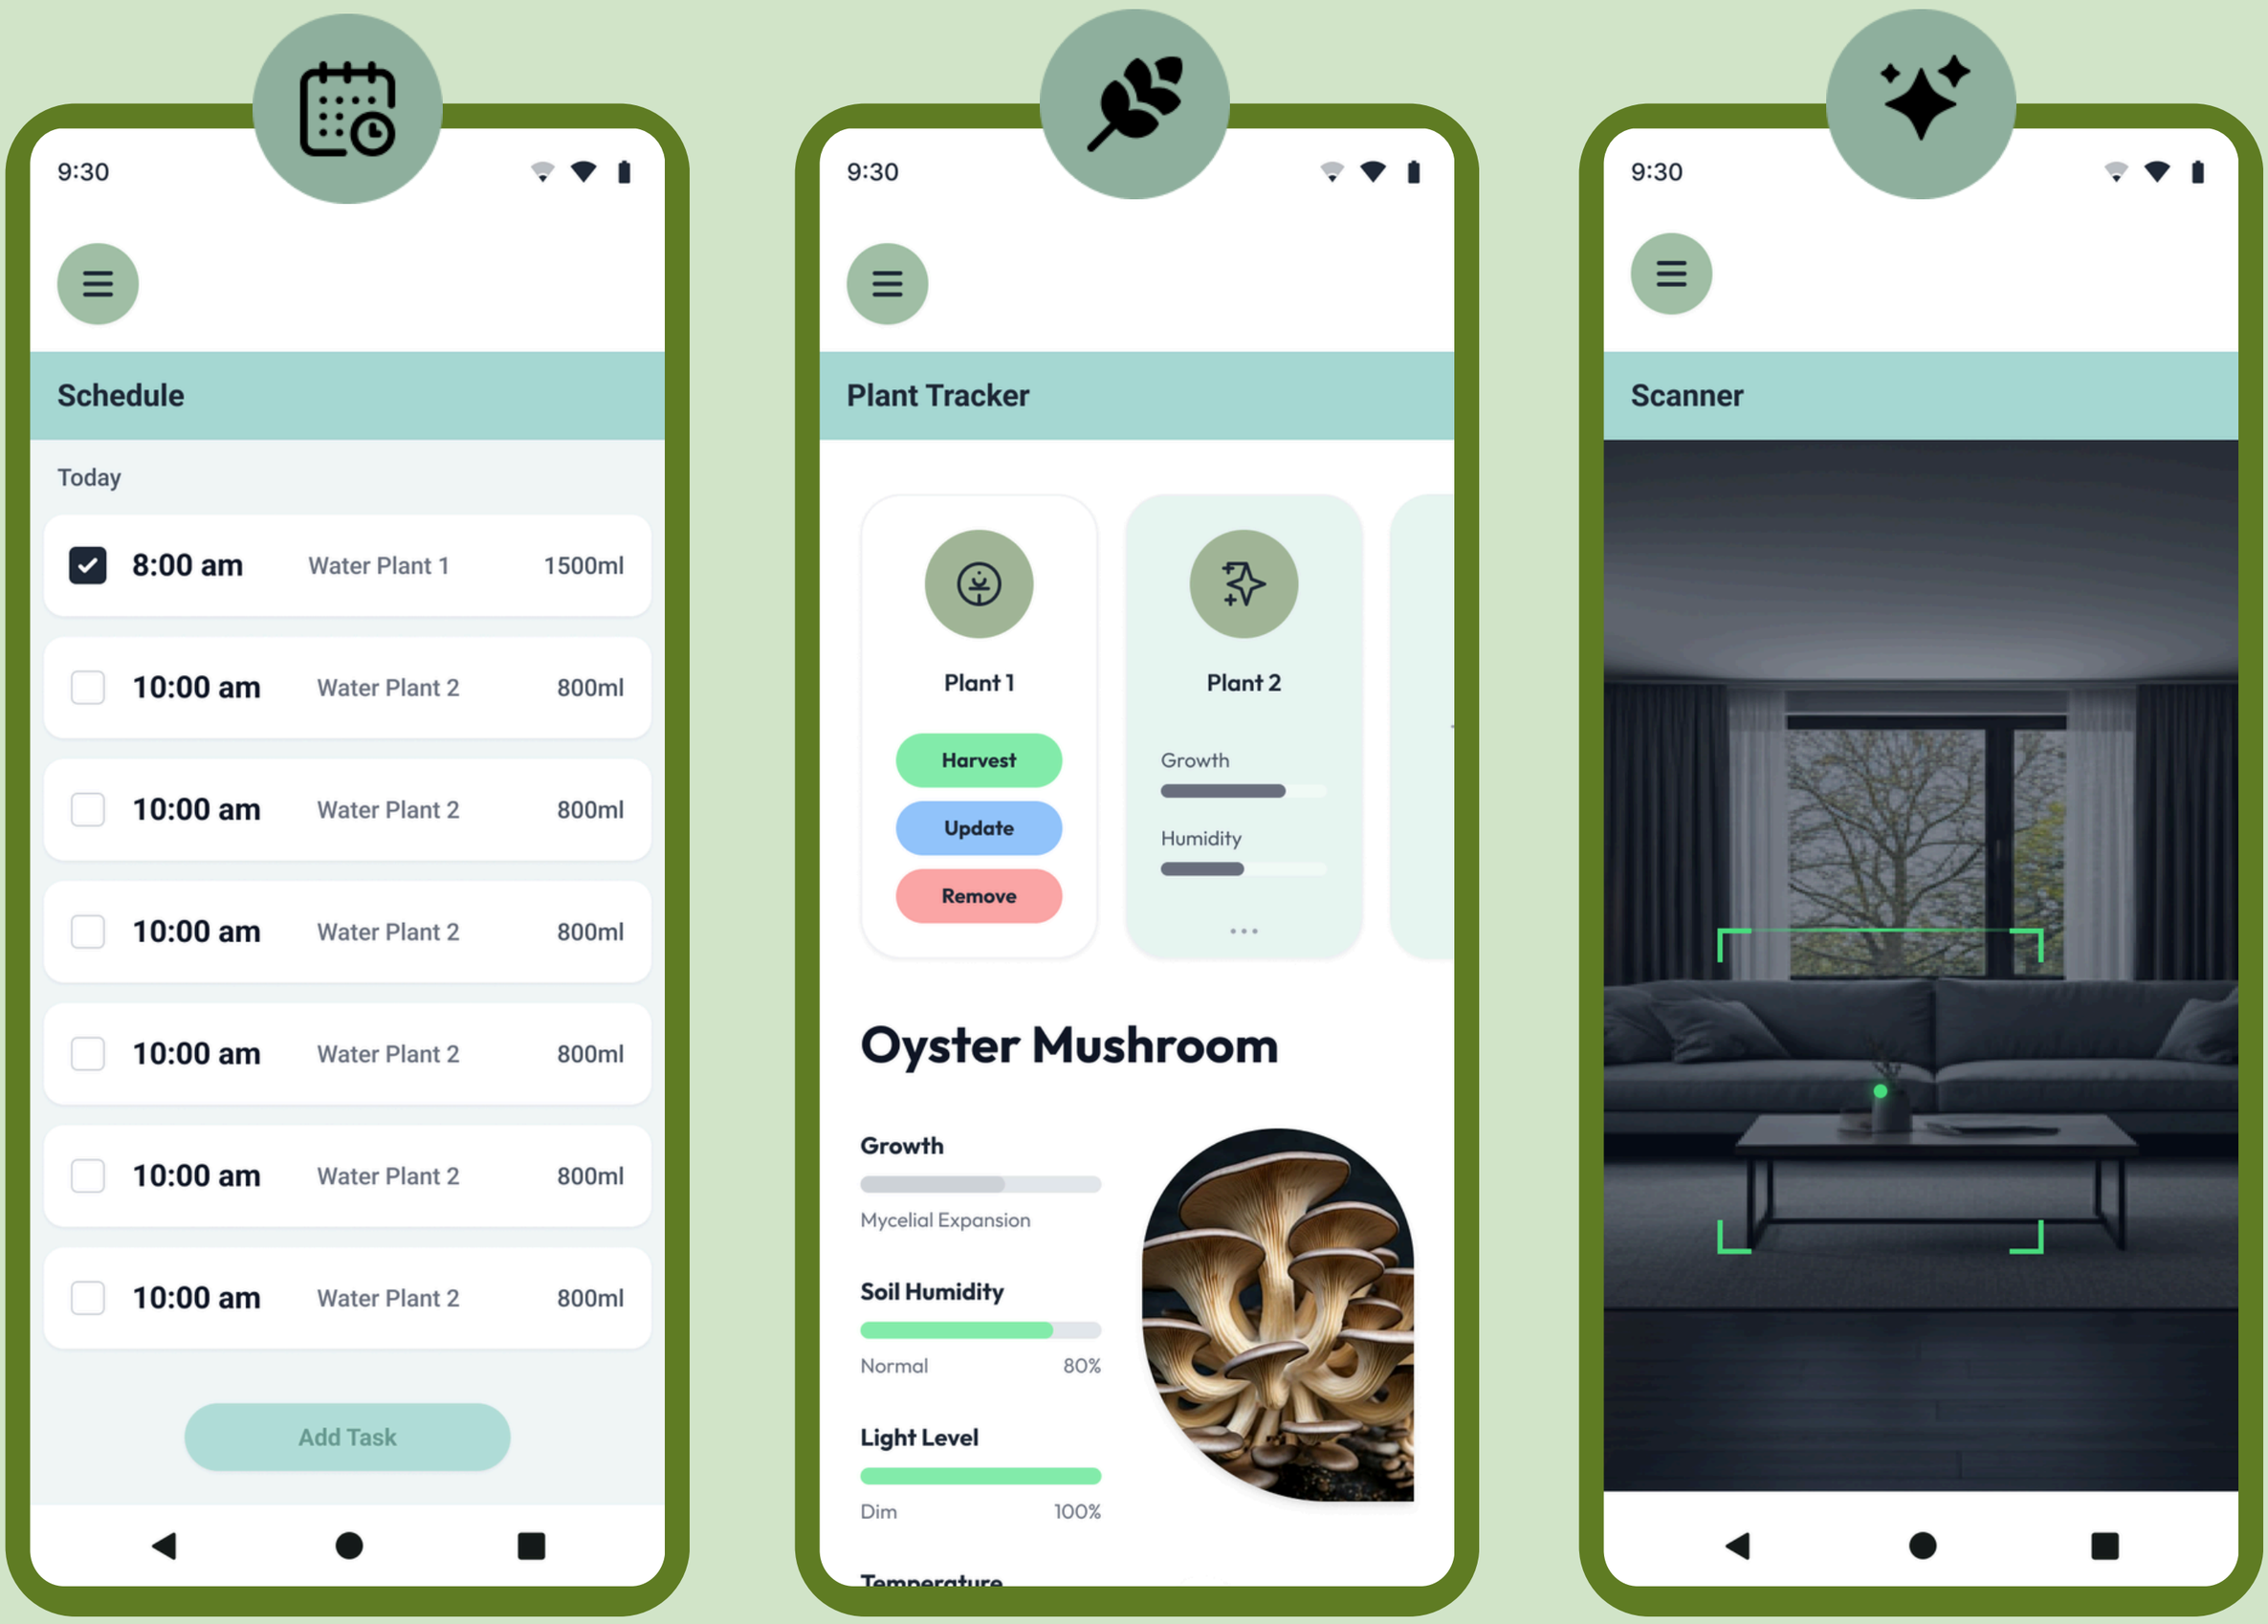

Target Market

- Small-scale farmers
- Hobbyists
- Homeowners
